In 1977, Romare Bearden (1911-1988), one of the most powerful and original artists of the 20th century, created a cycle of collages and watercolors based on Homer's epic poem, "The Odyssey." Rich in symbolism and allegorical content, Bearden's "Odysseus Series" created an artistic bridge between classical mythology and African American culture. The works conveyed a sense of timelessness and the universality

of the human condition, but their brilliance was displayed for only two months in New York City before being scattered to private collections and public art museums. **West Bedroom Gallery, Through Dec. 2** - "Affinities: Pairings from the Collection". This small focused assemblage of works from the museum's collection will invite the viewer to look at two very distinct works side by side and consider their differences and their similarities. **Northeast Bedroom Gallery, Through Nov. 25** - "Mystical Visions, Divine Revelations: Religion and Spirituality in 19th-Century Art".
