"Photography is one of the vehicles that I use to share my view of the world. As an Architect, the expression of Structure is central to my design process, bringing a sense of order to the final composition. These photographs examine the Structure that exists all around us — both in the natural and built environment. Behind the lens, I seek to capture those fragments of space and time that invite closer examination." Everyone at CAM is deeply saddened by the passing of Phil Freelon on July 9, 2019.
